

**Electric car charging
for people with street
parking**

CENEX Expo 4 September 2025

IN THE NEXT 7 MINUTES

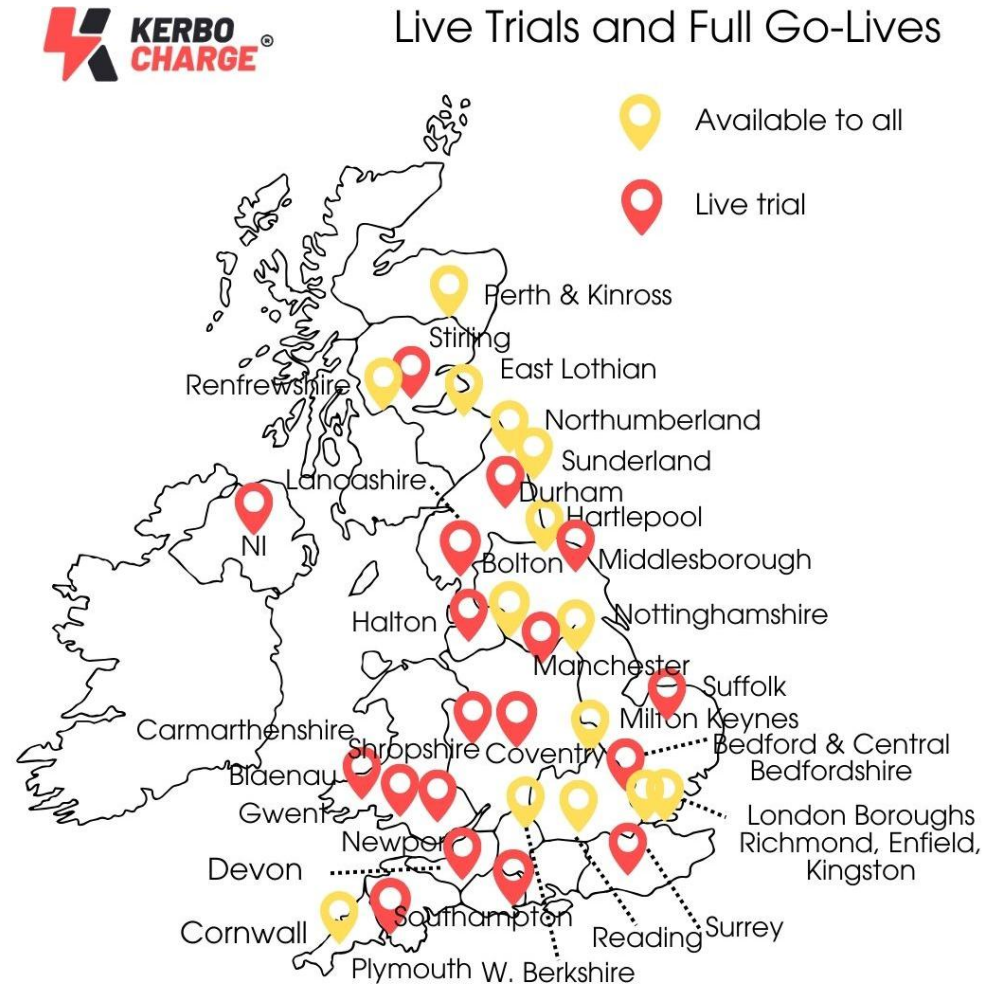

In the next 7 minutes.....

1. The Kerbo Charge difference
2. How to navigate maintenance & liability
3. Two exciting announcements!

Kerbo Charge is the UK's most popular cross-pavement channel

Kerbo Charge has 31 live trials and 14 councils have made it available to all

The only cross-pavement channel that bends with the pavement during install

Flexes with bendy / uneven pavements during installation

No pavement reinstatement work needed.

Self-closing lid

Memory polymer snaps shut to eliminate trip hazard. Tested by BSI to EN 1433 (C250 class).

Why is Kerbo Charge the most popular cross-pavement solution?

Hartlepool

"This Kerbo channel is a game changer for the EV owners living in their homes with no drive."
Stewart Molloy, customer

4.7

Area	1. Kerbo Charge Managed Service	2. Council Installed + Maintained
 Inspections	  Local authority + Kerbo Charge	 Local authority
 Maintenance	 Kerbo Charge	 Local Authority
 Liability (accidents caused by charging cable trip)	 Resident	 Resident
 Product and installation liability	 Kerbo Charge	  Kerbo Charge (Product) Local Authority (Installation)

Announcing Kerbo Glide – making cross-pavement charging accessible for all

Kerbo Glide cable insertion tool - available for pre-orders this week, ships in Q4

Hot off the press

 Charge Gully has become part of Kerbo Charge.

 We'll invest in Charge Gully as a separate brand to offer choice to residents and local authorities.

 Both products continue to be manufactured in the UK.
